

# Overview, frames for Room Thermostat

## 1. Introduction

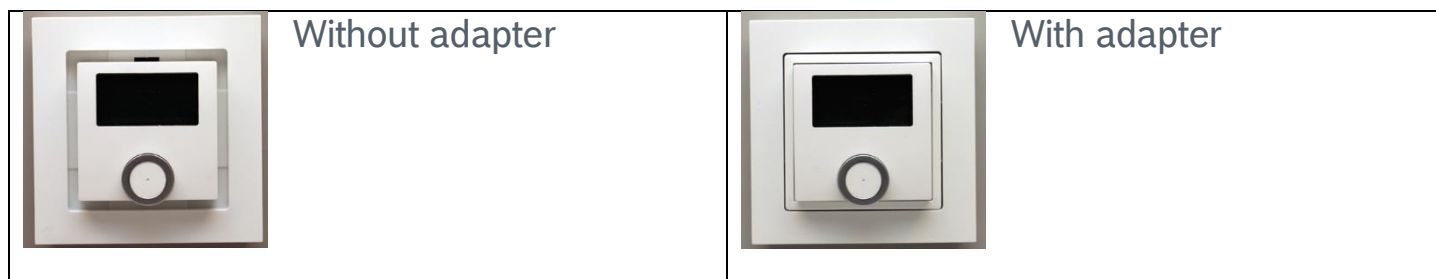

Your thermostat has been supplied with an interchangeable frame.

The room thermostat can be combined with many alternative frames from manufacturers offering products with a square inside dimension of 55 mm.

In addition to the square inner dimension, please also consider the height and other peculiarities of the design of your frame that could lead to an unsightly result or require modification to the frame.

Some manufacturers offer specific adapter frames for devices with the 55\*55 mm standard.

Please understand that with the variety of products on the market, we can not check all manufacturers. Feel free to share specific experiences with your products that we can share with other users by expanding this list.

## 2. Compatible frames

Here you find compatible frames for the Room Thermostat.

### IMPORTANT NOTE:

- ▶ This list is continuously expanded. If you do not find your frame, please consult our service department, who will be pleased to help you find an alternative, if necessary.
